

Christian Values in Design and Technology

Love	Compassion	Respect	Faith	Belonging
				
<p>Creating – Using design and technology skills without fear of right or wrong. We aim for our pupils to LOVE their design and technology and enjoy experimenting with a range of techniques and materials.</p>	<p>Inspiration - Looking to others to help us improve and help others.</p>	<p>Respect – Respecting and celebrating both our work and that of our peers. Respecting the natural resources around us.</p>	<p>Persevering – Keep trying and practicing to perfect skills in all areas of design and technology. No skill is achievable instantly.</p>	<p>Teamwork – Working together to develop design and technology skills to create an interesting result.</p>
<p>Imagination – look at things in unusual ways.</p>	<p>Generalisation - Spotting patterns and adapting them to develop design and technology skills.</p>	<p>Open mindedness – Being open to appreciating the work of others and the similarities and differences in techniques.</p>	<p>Making mistakes – Enjoy things that go wrong and learn from them.</p>	<p>Community links – participate in local events to support and showcase design and technology projects.</p>
<p>Cross curricular links – using design and technology to support learning in other curriculum areas.</p>	<p>Compassion – Understanding that we all have our own experiences, talents and opinions when it comes</p>	<p>Tolerance – Understanding and respect for others.</p>	<p>Self -confidence – Mastering and celebrating design and technology skills, by showcasing work</p>	<p>Expanding horizons – developing appreciation and understanding of other cultures and design and technology.</p>

Christian Values in Design and Technology

	to design and technology.		increases your self-belief and growth mind-set.
